(二 時 間)

英 文 和 譯

- (1) I urge upon you, as young engineers, soon to engage actively in the practice of our profession, that you should not be content with any narrow technical training, but that you should achieve that broad education which is required to fit you for the most responsible work in our modern society.
- (2) The simple spontaneous kindness with which these people treated me had a flavour about it, the like of which I have seldom experienced elsewhere. It was not the common hospitality usually shown to a stranger, but a natural, unstrained kindness, such as they might be expected to show to a beloved brother or son who had gone out from them in the morning and was now returned.
