CONTENTS

Chapter 1 Introduction
Chapter 2 Construction of Ring-Fluorinated 6-Membered Heterocycles via Intramolecular Cyclizations of o-Substituted β,β-Difluorostyrenes

2.1 Introduction

2.2 Cyclization of β,β-Difluorostyrenes Bearing an sp³ Heteroatom Nucleophile Linked by a Methylene Unit to the Ortho Carbon

2.2.1 Preparation of β,β-Difluorostyrenes Bearing a Heteroatom Nucleophile Linked by a Methylene Unit to the Ortho Carbon

2.2.2 Synthesis of 3-Fluorinated Isochromenes, Isothiocromenes, and Isoquinoline Derivatives

2.3 Cyclization of β,β-Difluorostyrenes Bearing an sp³ Carbon Nucleophile Linked by a Carbon or a Nitrogen Spacer to the Ortho Position

2.3.1 Preparation of β,β-Difluorostyrenes Bearing an Iodoethyl or a Cyanoethyl Group at the Ortho Position

2.3.2 Synthesis of Fluorinated Naphthalene Derivatives

2.3.3 Preparation of β,β-Difluorostyrenes Bearing a Cyanomethylamino Group at the Ortho Position

2.3.4 Synthesis of 3-Fluorinated Quinolines

2.4 Cyclization of β,β-Difluorostyrenes Bearing an sp² Nitrogen Nucleophile Linked by a Carbon or a Nitrogen Spacer to the Ortho Position

2.4.1 Synthesis of 3-Fluorinated Isoquinoline N-Oxides

2.4.2 Synthesis of 3-Fluorinated Cinnolines

2.5 Cyclization of β,β-Difluorostyrenes Bearing an sp³ Nitrogen or Carbon Nucleophile generated from an Unsaturated Functional Group at the Ortho Position
2.5.1 Preparation of $\beta,\beta$-Difluorostyrenes Bearing a Cyano or an Isocyano Group at the Ortho Position
2.5.2 Synthesis of 3-Fluorinated Isoquinolines
2.5.3 Synthesis of 3-Fluorinated Quinolines

Chapter 3 Construction of Ring-Fluorinated 5-Membered Heterocycles via Intramolecular Cyclizations of $o$-Substituted $\beta,\beta$-Difluorostyrenes 111

3.1 Introduction 111

3.2 5-endo-Trig Cyclization of $\beta,\beta$-Difluorostyrenes Bearing a Heteroatom Nucleophile at the Ortho Position 112

3.2.1 Preparation of $\beta,\beta$-Difluorostyrenes Bearing a Heteroatom Nucleophile at the Ortho Position 112

3.2.2 Syntheses of 2-Fluorinated Indoles, Benzo[b]Furans, and Benzo[b]Thiophenes 114

3.3 Effect of Fluorine Substituents on 5-endo-Trig Cyclization 117

3.3.1 Competitive Cyclization Between 5-endo-Trig and 5-exo-Trig Processes 117

3.3.2 5-endo-Trig Cyclization of $\beta$-Monofluoro, $\beta,\beta$-Dichloro, and $\beta,\beta$-Dibromostyrenes 118
